x = the diameter of the gold dot at the size the logo is used. Keep a margin of x on every side; nothing else (text, edges, other logos) goes inside it.

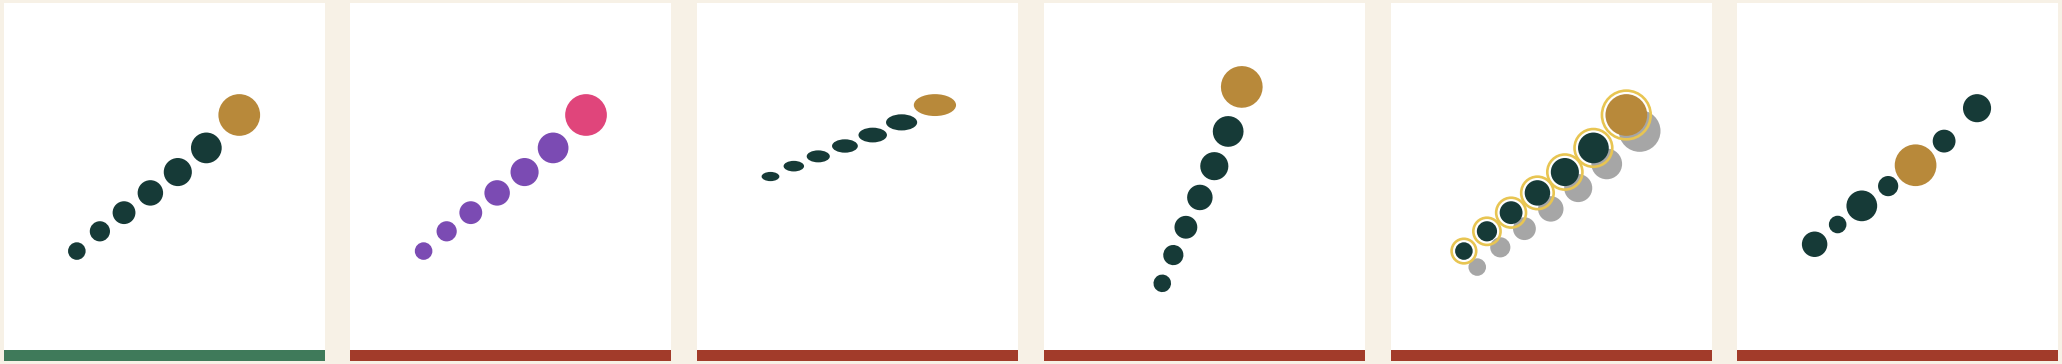
MINIMUM SIZES

Icon: 16 px on screen, 6 mm in print. At 24 px and below use the small-size variant (four dots).

Horizontal lockup: 120 px wide on screen, 30 mm in print.

Shown at actual print size.

DO AND DON'T



Do: use the supplied files | Don't recolour | Don't stretch | Don't rotate | Don't add effects | Don't rearrange the dots

Always use the supplied files. Keep the dots, their sizes, order and spacing, the colours and the proportions exactly as drawn: no recolouring, stretching, rotating, shadows, glows, outlines or rearranging. On photographs, use the reversed or one-colour version where it reads clearly.
